

ELIM LANDS

Project

Lay MEDICAL MISSIONARIES in Nigeria, Africa
Grow them in Africa's fastest growing economy

www.elimlands.org

Objectives

To spread the Advent Message of Christ's soon coming through the Gospel Medical Missionary work.

To elevate the people of Africa physically, mentally, and spiritually.

To encourage productiveness, education, morals, and positive community leadership in society.

To support, encourage, and strengthen young people and families in their faith.

To establish and maintain several health education centers that provide consultation on all kinds of social problems.

reached goals

- Training Facility built.
- 50 Missionaries trained and provided with mentorship while in their specific mission fields.

OTHER PAST PROJECTS

A total of 20 graduates trained in the Gospel Medical Missionary Training over the years of 2011 - 2013 and a Lifestyle Medicine Centre set up since 2011 for Seventh-day Adventist Hospital, Ile-Ife.

CLASSROOM UNDER THE TREES

WORK EDUCATION

HEALTH EXPO

OUTREACH

Projects

To train missionaries to support the SDA Hospital and Vegetarian Restaurant, Ile-Ife as a city-post.

To build and operate a natural health center facility in Nigeria and Czech Republic.

To train missionaries to assist other ministries across Africa and to setup new Centers of influence.

To create opportunities for health community projects.

Testimony by Dr. Akin Obisanya

(Retired CMD, Seventh-day Adventist Hospital Ile-Ife, Nigeria)

“ Our Lifestyle program in the SDA Hospital Ile-Ife is not only helpful in the management of chronic disease patients, it is a great outreach tool for our communities. It also had a positive impact on my life. ”

Testimony by Dr. Jochen Hawlitschek

(Retired Health Ministry Director of SDA Euro-Africa Division)

We need young people, dynamic, like you to do this work.

When I was the Health Director of the Division, I noticed that alone I cannot do all this work. We need to train young people all over and join our efforts! ”

Missionary/Physician **Team**

Dr. Peter Opreh (Nigeria, Health Director, Chairman of the Board)

A family physician actively involved in church planting work since 1987.

“ I am passionate about medical missionary work and lifestyle medicine, I was actively involved in setting up the Lifestyle Center in my hospital. ”

Vojta Ligenza (Czech Republic, Project Coordinator, Board Member)

A Medical Missionary, worked in Europe and Africa as coordinator and teacher. Kopna Project in Czech Republic (2006 – 2009). Lifestyle Medicine Centre in Nigeria (2011 – 2015). Elim Lands (2015 till date).

“ Through God’s providence I have been brought to Nigeria to take part in this grand work – the Medical Missionary Work. ”

David Ekundayo (Nigeria, Board Member)

An architect by profession, started his company in 2004 and handled many residential and commercial projects including hospital and church buildings.

“ After many years of studying Spirit of Prophecy, in 2010, we decided to move with my family to a country side into the Muslim region of Nigeria to reach out to them through Medical Missionary work. ”

Dr. Siow Leong Fam (Malaysia, Board Member)

A general surgeon served in various SDA mission hospitals since 1998.

“ My vision is to see medical missionary work set up in many places in Nigeria and in all the countries, training people to help others to be ready for the second coming of Jesus Christ. ”

Femi Falade (Nigeria, Board Treasurer)

A private practice land surveyor, well connected with the local authorities.

“ I’m active in church outreaches, seminars. I personally adopted healthy lifestyle and in this way manage my chronic disease. ”
